2. Indoor LED Curtain
Features of LED curtain:

**Light** – This is the most important feature of LED curtain. Comparing with the common LED display, the cabinet of LED curtain is thin and light, not only easy for carrying, but also save a lot of costs on material.
Transparent~ The full color LED curtain can play video and any kinds of color as common displays, with the transparent effect, it bring a kind of atmosphere of fantastic dream.

Now I would like to introduce you our new design of LED Curtain Cabinet
